Software Languages: *HTML5, CSS, JQuery, Javascript, Bootstrap, AJAX, SASS,, Express, ReactJS, Node, Handlebars, Firebase, AWS, Webpack, Gulp, MERN Stack, APIs, OOP, ES6, MVC, Sequelize.*

Projects

Employee Tracker | github.com/Simplyareed/Employee-Tracker

- Creating an employee management system that is designed for business owners to efficiently view and manage departments, roles, and employees within their company.
- Database Management, Setting up and interacting with MySQL databases using Node.js. (CLI) Development, Data Manipulation that entails Performing CRUD operations on database. Implemented business logic to handle complex data queries and ensure optimal performance.
- Node.js, MySQL, Inquirer

Note Taker | github.com/Simplyareed/Note-Taker | Link to App: <https://pacific-lake-23832-52483592f946.herokuapp.com/>

- Developed a Note Taker application to write and save notes using an Express.js back end. The application saves and retrieves note data from a JSON file. Integrated the front end with the back end and deployed the application to Heroku.
- Built out the front end and connected the back end using Express.js to handle note data storage and retrieval. Deployed the full application to Heroku for public access.
- Express.js, Node.js, JSON, Heroku

Daily-Routine | github.com/Simplyareed/Daily-Routine | <https://evening-island-65599-8c8e55b840d3.herokuapp.com/>

- This application was built to help users create an exercise routine. Incorporate our skills utilizing MVC, APIs, JavaScript, and Handlebars. Showcasing my teams fullstack ability on the technical level as well as in a team environment.
- Created the front and back end features. Managing the MVC paradigm. Integrated third-party APIs to fetch and display exercise data dynamically.
- JavaScript, Node.js, Express.js, Handlebars, MySQL, RESTful APIs, MVC architecture, Heroku

Experience

Security Supervisor

2016 – 2024

Allied Security/Bedrock

Cleveland, OH

I spearheaded the oversight of security protocols and procedures, ensuring robust protection of physical and digital assets within the premises. Leveraging my expertise, I managed a team of security personnel, implementing and optimizing access control systems, emergency response, surveillance technologies, and alarm mechanisms to fortify the building's security framework.

Key Accomplishments:

- If applicable, bullet-point 2-4 key value-adds, quantifiable achievements or metrics, or recognitions, i.e., awards, nominations, special assignments, leadership, praise, etc.
- Worked numerous high detailed security assignments, promoted to team lead and given overall clearance last year at job.

Education

Program Certificate: Ohio State University, Sacramento, CA

[In-

progress/ Anticipated graduation (7/18/24)]

An [18-24] week intensive [program/degree] focused on gaining skills in [list clinical or technical skills]. Program Summary optional

Degree or Certification: Ohio State University, Columbus, OH

2024 – 2024
